

Air1 is providing an important service to the public here in the Santa Clara County. With much of the music aired on the airwaves, I find it very hard to find a station that doesn't air negative things (sex, drugs, out of place jokes..) that play music that I listen to. However, with stations such as Air1, I find a station that I am able to relate to and enjoy. If Air1 were to be displaced by an LPFM broadcaster providing other programming, I'm not sure what I would do. Music has played an integral part in my life and has the ability to affect my day in several ways. I think Air1 provides the community with a positive alternative to some of the things that fill the airway today. One that has the hope of Jesus Christ.
